

# FaceTime - checklist

Learn  
My Way

## How to use FaceTime on a mobile device:

### You will need:

- An Apple device (e.g. iPhone/iPad) connected to the internet. (Hint - If you're using a mobile device there may be charges applied)

### Steps to use FaceTime on a mobile device:

- Select FaceTime to open it (Hint - It is already installed on all Apple devices)
- Select the + button
- Type in the phone number / email of the person you want to contact (Hint - They will also need an Apple device to use FaceTime)
- Select video (video call) or audio (voice call) to contact that person
- To end a call press the red telephone button

### Next steps:

- Start adding friends and family to the app and chat with them
